**Electric Towel Rail
HB-R56 Series**

HB-R5602C (Material: Brass)

(Dry lined electric towel rails)

Many of the towel warmers can also be supplied for only electric operation, employing a silicon cored resistance wire which is threaded through the inside of the tubing during manufacture. However, only relatively low wattage heat outputs are attainable(60Watts-120Watts). In case of failure the towel warmer needs returning to the manufacturer for a replacement of heater core.

Code	Length/A (mm)	Width/B (mm)	Distance/C (mm)	Height/D (mm)
HB-R5601	660	500	475	100
HB-R5602	660	500	475	100
HB-R5603	1200	500	475	100
HB-R5604	700	500	475	275
